G2A

From Generative Models to Robot Actions

actiongapworkshop.github.io

WORKSHOP @ CoRL 2026

Thursday, November 12
14:00 – 18:00 CST
Austin, Texas, USA

CENTRAL QUESTION

How can knowledge learned from large-scale video, image, and 3D data, collected without robot action labels, be turned into executable robot policies?

Invited Speakers

Mike Rabbat
AMI Labs
14:10

Yilun Du
Harvard University
14:35

Qwen Robotics Team
Alibaba
15:00

Jonathan Tremblay
NVIDIA
16:00

Program

Thursday, November 12 · CST

14:00 – 14:10	Opening remarks	
14:10 – 14:35	Mike Rabbat	TALK
14:35 – 15:00	Yilun Du	TALK
15:00 – 15:25	Qwen Robotics Team	TALK
15:30 – 16:00	Coffee break & Poster session	
16:00 – 16:25	Jonathan Tremblay	TALK
16:25 – 16:45	Best paper announcement & presentation	
16:45 – 17:35	Oral paper presentations	ORALS
17:35 – 18:00	Workshop Challenge award winners	

At the Workshop

AWARDS

$3,000 best paper · $1,500 per oral

Compute credits, announced live at 16:25.

POSTERS & ORALS

All accepted papers

Poster session 15:30, oral talks 16:45.

CHALLENGE

G2A Jenga Challenge

Winners announced at 17:35.
